Streamex Corp. Announces Monthly GLDY Reserve Report

November 13, 2026

WINTER PARK, Fla., Nov. 13, 2026 (GLOBE NEWSWIRE) -- Streamex Corp. (“Streamex” or the “Company”) (NASDAQ: STEX), a technology company building the future of the commodity markets through tokenization, today announced that its independent registered public accounting firm has completed additional independent monthly examinations of the reserves backing GLDY, the Company’s gold-backed, yield-bearing tokenized security. The examination covers gold in reserve and gold on lease between April 1 and September 30, 2026, and marks the continuation of monthly reporting Streamex intends to conduct on an ongoing basis.

- GLDY tokens are subject to an independent examination on management’s assertion that each GLDY token is backed by at least one troy ounce of gold. Our independent registered public accounting firm’s reports have been made publicly available at https://ir.streamex.com/reserve-reports-gldy-0. Investors are encouraged to read these reports in their entirety.
- This is a continuation of monthly examinations, conducted on a monthly basis. Streamex is committed to making the results of these independent reserve examinations publicly available upon completion. These monthly examinations are in addition to a year-end audit giving investors additional confidence that GLDY tokens are backed by at least one troy ounce of gold.

Attestation Details

Under the engagement, our registered public accounting firm performs an examination, conducted in accordance with the attestation standards established by the American Institute of Certified Public Accountants (AICPA), of management’s assertion regarding the gold held for the benefit of GLDY token holders. The examination evaluates management’s assertion that, as of each report date, the total redemption assets held, measured in fine troy ounces of gold, are equal to or greater than the total GLDY redeemable tokens outstanding.

The reserve position reflects gold held in approved vaults for the benefit of token holders together with gold deployed under the Company’s leasing program with Monetary Metals, in which the Company retains title to the leased gold throughout the lease term. An examination provides reasonable assurance and results in the expression of an independent opinion on management’s assertion.

Streamex makes each completed attestation available to investors as part of its broader commitment to independent, third-party attestation of GLDY’s reserves. All monthly attestations completed to date can be viewed here: https://ir.streamex.com/reserve-reports-gldy-0.

Henry McPhie, Co-Founder & Chief Executive Officer of Streamex, said:

“Independent assurance is the foundation of institutional trust. Our continual third-party reserve attestations confirm that the gold backing every GLDY token is real, accounted for, and verifiable, not just on-chain.”

Ongoing Transparency

GLDY is a gold-backed, yield-bearing tokenized security that pays a 3.5% target yield in additional gold through gold leasing.
